MILWAUKEE CHAPTER**

"salvation for a race, Nation or class must come from within"

The A Philip Randolph Institute advocates for social, labor, and economic change at the State and Federal level using legal and legislative means.

March 2023

Brothers and Sisters

For years the A Philip Randolph Institute has counted on the support of our union brothers and sisters and other likeminded organizations to help us carry out our mission of protecting the voting rights of all citizens in our community. With the current political climate both here and in Washington, D.C., *everyone* needs to cast their ballot to protect our right to be in a union; to choose our representatives without the restrictions imposed by partisan gerrymandering; to protect a woman's right to choose; to have fully funded and safe schools for our kids and many more issues than I can name. With the involvement of your organization and others, the effort to register new and drop-off voters can be greatly expanded.

Through your membership contributions, we sponsor Get Out the Vote campaigns and voter registration drives where we talk to citizens of our community on the issues affected by their votes. We watch for poll violations that would make it more difficult to vote, or attempt to intimidate people and keep them from voting.

And in our community, we host blanket drives, prepare and deliver brown bag lunches to the homeless, bring meals to women's shelters and more. These efforts aren't about us. We want to make sure that we participate in and help to force the changes necessary to make the society we live and work in work for everyone. We are counting on your support for and involvement in our Chapter. Our organization grows not only in numbers by your involvement, but in its capacity to serve. Please consider a membership for the year 2023.

An Organizational Membership is only \$150 per year and includes up to four spots on our local board. If interested, the application is on the reverse of this page.
